

DiTEM

Digital Transformation of European Micro Enterprises

DiTEM consortium will provide European Micro Enterprises with Training Tool to begin their Digital Transformation, thus enhancing their competitiveness. Nowadays, novel digital technologies (particularly Social, Cloud, Mobile and Big Data) are transforming the way companies operate across all markets and creating new business opportunities for digital entrepreneurship.

In 2018 the European MEs will be able to participate in the pilot testing of the DiTEM platform where they will be able to gain new skills and give feedback for improvement of the training course.

We will set out a series of recommendations for policy makers responsible for education and business, focusing on the specific implications for micro enterprises.

DiTEM's website is now up and running
