

Digital Transformation of European Micro Enterprises

Dear Digital Entrepreneur,

As you know (or you don't know yet) the DiTEM consortium provides European micro-enterprises with a Training Tool to help them out in beginning their own Digital Transformation, thus enhancing their competitiveness as well. We believe that nowadays, novel digital technologies (particularly Social, Cloud, Mobile and Big Data) are transforming the way companies operate across all markets and creating new business opportunities for digital entrepreneurship.

In 2019, the DiTEM partnership will celebrate the DiTEM Training Tool, by presenting it via informational events in all 6 partner countries. This will raise awareness not only for the project's achievements, but also for the digitalization in Europe as a whole.

Interested in the event? Read on to learn a bit more about each of the partners and stay tuned by visiting your local DiTEM representative's website to make sure you are on track with the upcoming events:

Manchester Metropolitan University (UK)
