Let's get familiar

Let's get familiarized with IDEAL!

WHAT IS IDEAL?

Digital technologies are quickly changing education and is bringing many opportunities for adult education centers and training organisations, impacting what, where and how training programs are delivered. However, the adoption of these technologies remain slower than seen in other industries.

Innovation

The integration of technology within the adult education sector can fundamentally transform how learning is received and delivered.

IDEAL project aims to provide a complete package of materials and tools which enable lecturers, teachers and trainers to develop innovative pedagogy & training methods and put in to practice digital education.

Transnational

Digital technologies are everywhere, in all industries, and are radically changing the European labor market.

IDEAL project complements several initiatives, projects and policies of the partners.

It is important to compare, assess and share practices on the existing similar programmes in order to complement and improve them.

arized with IDEAL!

How IDEAL will improve the inclusion of digital education in adult learning?

OUR IMPACT

Through a campaign

To inform and convince educators, teachers and trainers involved in adult education about the opportunities and benefits of digital education

Developing a trainer manual

Describing step-by-step HOW digital tools and ICT can be implemented in their teaching practices and strategies.

Providing a Toolkit

For teachers, trainers and educators, that offers the best digital and modern tools to use and easily, quickly and directly implement in their course or training.

Online platform

To make the materials easily accessible and free of charge.

The project will contribute to the professional development of educators, teachers & trainers active in adult education, as they will gain access, knowledge and skills regarding the use of digital tools.

The adult education and training organisations will be better placed to prepare and support their trainers to take full advantage of the digital tools and the opportunity they offer for increasing the quality of the education offered.

PROJECT TEAM

Co-funded by the
Erasmus+ Programme
of the European Union

projectidealeu

Project Ideal
